

Evan Buck

541-944-8976 | evanbuck9@pm.me | <https://github.com/EJB-GH>

TECHNICAL SKILLS

Languages: C++(OOP), Python(Script, OOP, ML, Data), C(OOP), PostgreSQL, Shell Script

Cloud and Containerization: Google Cloud, AWS, Docker, Kubernetes, Terraform, Cloud Run, BigQuery

Developer Tools: Linux/Vim/Emacs, Git, VS Code, Jupyter, Pytest, DataGrip, Makefile

Python Libraries/Tools: PyTorch, NumPy, Matplotlib, Alembic, Flask, SQLAlchemy, Requests, MCP, langchain, Pycopg, Pandas

Relevant Coursework: Web and Cloud Security, Internet, Web and Cloud Systems, Principles of Programming Languages, Data With Python, Computer Security, Machine Learning, Intro to Operating Systems, Intro to Database Management

PROJECTS

Flask Web App Library | *Python, Flask, Alembic, HTML*

Feb 2026 - Curr

- Custom python/flask web app to house my personal library.
- PostgreSQL database backend with alembic migrations.
- HTML Front end
- Repository - <https://github.com/EJB-GH/ladys-library>

Cloud Run MCP Server | *Python, Docker, Cloud Shell*

December 2025

- Cloud Run deployed gemini based MCP server, with client running in cloud shell
- Uses multiple Google API endpoints to take user query and return results
- Deployed using scripts into cloud run
- Repository: <https://github.com/EJB-GH/MCP-BookAgent-Server>

Alzheimer's MLP and CNN Comparison | *VSCode, PyTorch*

May 2025

- Design a Multi Layer Perceptron, and Convolutional Neural Network
- Group project, comparing MLP and CNN performance, as well as finding optimal hyperparameters
- Oversee merge requests
- Repository: <https://github.com/EJB-GH/ML445Proj>

Multi-Process Password Breaker | *C, Linux/Emacs, Make*

Mar 2025 - Mar 2025

- Use fork spin up processes, manage shared memory to access resources.
- Use signal handlers to manage and restart child processes.
- Keep statistics for child performance, and clean up PIDs.

EXPERIENCE

Lab Technician - UST, Intel

Jan 2026 - Current

- Build custom server and personal machines per client request
- Verify hardware and install and validate required software/firmware
- Debug Workstation/Server/Client hardware and firmware issues
- Use of Microsoft software suite, including SharePoint, Excel, OneNote, Teams

EDUCATION

Portland State University

Portland, OR

Bachelor of Science in Computer Science

Sept. 2023 - Exp June 2026

Member of the Portland State CyberSecurity Club, 2025 - Current

Overall GPA 3.81

Portland Community College

Portland, OR

Associate of Science

Sept. 2021 - Sept. 2023

Overall GPA 3.74
